Programme Highlight

Interactive Digital Platform

Our interactive virtual learning platform enables unhindered learning for the learners. Apart from having the programme material readily available at the touch of a button, students also get access to our online library consisting of over 70,000 journals & ebooks.

Best Suited for Working Professionals

GlobalNxt University's MSc programme in IT Management is specially designed for working professionals offering learners the flexibility to study as per their convenience. Being a part of a global classroom they also get to interact with their faculty members and fellow learners, which promotes interactive learning sessions.

Mix of Real-World And Theoretical Knowledge

The programme structure follows a balanced approach to ensure that learners gain both theoretical knowledge as well as practical industry skills. Case studies, workshops, discussions, and live projects are an essential component of the programme which helps students gain real-world skills and exposure. The programme encourages learners to look at business challenges from an IT perspective and overcome these problems through strategic analysis.

Global Recognition

The Masters in IT management programme offered by Manipal GlobalNxt University is accredited by the Malaysian Qualifications Authority (MQA). The University is registered with the Malaysian Ministry of Higher Education (MOHE).
