Programme Highlight

Focused Research Curriculum

This doctoral program develops advanced research capabilities to explore complex educational issues with scholarly depth. Follow a structured pathway from proposal development to thesis defense.

Tailored for Working Professionals

Perfect for those aiming to advance swiftly in academia and educational research, the program supports your doctoral journey while you maintain professional commitments through flexible scheduling and guided supervision.

Flexible, Online Learning with Global Access

Leverage a fully online model with continuous access to research tools, academic support, and a dynamic digital library. Stay connected with supervisors and peers world-wide.

Practice-Oriented Approach

Contribute to meaningful educational reform by applying your research to address real-world problems. Engage in scholarly discourse, collaborative inquiry, and critical reflection.

Expert Mentorship and Supervision

Work closely with experienced supervisors who bring diverse disciplinary perspectives. Their mentorship ensures rigorous research development and personalized support for your academic and professional growth.

Level up your career today!

Join the global community and start learning together.

Overview

PhD Education

The Doctor of Philosophy (Ph.D.) in Education at GlobalNt University is a fully online, three-year research-based programme designed for experienced educators, academic professionals, and leaders looking to advance knowledge and practice in education.

Tailored for working adults, the programme offers flexible, self-paced learning with 24/7 access to academic resources and global peer collaboration. It equips learners with advanced research skills to critically examine educational issues and generate evidence-based solutions relevant to their contexts.

The structured curriculum includes two research methodology modules, followed by research proposal development and a research-intensive thesis phase. Learners receive personalized mentorship from expert supervisors to support high-quality, impactful research.

Learners are encouraged to explore topics aligned with their professional interests—ranging from educational technology, curriculum reform, leadership, adult learning, to AI in Education (AIED).

Graduates emerge as scholar-practitioners equipped to drive educational innovation, influence policy, and contribute meaningfully to the global education landscape.

The Ph.D. in Education attracts a diverse cohort of dedicated professionals seeking to advance their careers in academia, research, and educational leadership.

Some areas of focus in Educational Research:

1. Curriculum and Instruction
2. Educational Psychology
3. Educational Policy and Leadership
4. Educational Technology
5. Teacher Education
6. Assessment and Evaluation
7. Special Education
8. Early Childhood Education
9. STEM Education
10. Open and Distance Education
11. Technical and Vocational Education and

- Training (TVET)
12. AI Education (AIED)

Networking Opportunities

Connect with a diverse cohort of fellow students and faculty members from around the world, expanding your professional network.

Global Perspective

Gain a global perspective by interacting with peers and professors from various cultural backgrounds.

Technology Driven

Leverage advanced online tools and resources for research, collaboration, and learning.

Select Your Area of Research

Being a research-based program, PhD in Education offers all the freedom for learners to select their area of research within the Education domain that aligns closely with their career goals.

"Our blended learning environment presents a judicious mix of our authentic interactive asynchronous learning environment with the just-in-time synchronous learning interventions that results in a rich and unique learning experience!"

Dr. Chinmoy Sahu
Vice Chancellor

What is included in the programme?

Research Modules

- ▶ Research Process and Academic Writing
- ▶ Research Design and Methodology

Research Thesis

- ▶ Thesis Proposal
- ▶ Thesis

Admission Eligibility Criteria

Who is eligible?

- 01 Any Master's degree, as accepted by the Academic Senate (OR)
- 02 \Other qualifications equivalent to a Master's Degree as approved by the Academic Senate.
