Overview

Shaping Strategic Leaders & Pioneers

This programme is designed for individuals aiming to deepen their understanding of complex business and management issues. It emphasises creating original contributions to academic literature and research, empowering you to become a significant player.

The programme equips you with a solid grasp of theoretical foundations and practical applications, enabling you to tackle real-world challenges with critical thinking and innovative solutions. You will develop the ability to conduct independent research effectively and enhancing their collaborative communication skills.

At GlobalNxt University, you can research various areas, including General Business, Organisational Theory and Behaviour, Wholesale and Retailing Management, International Business, Management Studies, Business Economics, and Personnel Management. This comprehensive approach prepares you to explore and contribute to these vital fields. A distinctive feature of this programme is the flexible Open & Distance Learning (ODL) environment, catering to working professionals and international students, offering the flexibility to learn at your own pace and from any location. This approach provides access to world-class resources, interactive learning platforms, and a global community of scholars, all while balancing personal and professional commitments. Committed to fostering lifelong learning, this programme prepares you to become a thought leader in the dynamic business world, equipping you with the tools needed to excel in an ever-evolving landscape.

“Our blended learning environment presents a judicious mix of our authentic ~~active~~ asynchronous learning environment with the just-in-time synchronous learning interventions that results in a rich and unique learning experience!”

Dr. Chinmoy Sahu
Vice Chancellor

Global Networking Opportunities

PhD candidates often attend international conferences, workshops, and seminars, allowing you to connect with global thought leaders, scholars, and practitioners in the management field. This exposure elevates your academic and professional profiles, preparing you for leadership roles in academia, industry, or consulting.

International Faculty Expertise

With an esteemed international faculty, all holding doctorates in various fields, the programme integrates global expertise, offering you diverse knowledge and perspectives. Faculty members bring extensive academic and professional experience, enhancing the programme's academic rigour and international outlook.

Interdisciplinary Opportunities

As management intersects with disciplines like economics, sociology, psychology, and technology, the programme fosters interdisciplinary research. This approach encourages you to explore complex real-world problems from various perspectives, producing innovative solutions that are academically sound and applicable to diverse sectors.

Personalised Research Guidance

Designed for personalised research journeys with comprehensive support from international faculty. You will collaborate with globally recognised experts to refine your research focus, align with international trends, and ensure academic and real-world impact. This tailored guidance helps you explore your academic potential while addressing key challenges in management.

Research Excellence & Flexibility

This programme offers a flexible and dynamic structure, enabling you to engage in cutting-edge research tailored to your specific interests within key management areas. This allows you to make meaningful contributions not only to academic literature but also to industry practices, ensuring your research has both theoretical and practical relevance.
