The Manipal heritage

The Manipal Education and Medical Group (MEMG) is a leading provider of education, research and healthcare.

The Group operates universities and medical colleges in Antigua, Dubai, Malaysia and Nepal, and its universities in India rank in the top echelon of private universities. Also, through its various professional academics, the group provides education and upskilling opportunities to executives from leading corporations and financial institutions.

The Manipal Education Mantra — Achieve, Enable and Transform — builds on a legacy to create a future for every life it touches, a future that inspires achievements, enables ambitions, and transforms lives, worldwide.

Manipal GlobalNXT a university for the digital era

Manipal GlobalNXT University is a pioneering university that sets a standard in digital, online education. With its unique virtual classroom pedagogy, the university brings together a student community and leading faculty from across the globe universities who are part of the Universitas 21 network. At the invitation of the Malaysian Ministry of Higher Education to create a world-class, technology-enabled university, Manipal GlobalNXT was formed in partnership with the Manipal Education and Healthcare Group. Today, the university is ideally placed to take forward U21 Global's original vision of global borderless education.

Manipal GlobalNXT at a glance How students learn

FROM ANYWHERE

- Connect with global faculty spread across the world
- Establish Global Network

Overview

The PhD in Education is a three years' research-based program. The program is meant for working professionals wishing to pursue opportunities in teaching or research at some stage in their career. With growing pace of technology and market competition, continuous education as well as innovation has become a necessity for sustenance of organisations. The program is designed to foster talent for the higher education area in Malaysia and other countries as required in today's knowledge-based economy.

Learning Outcomes

Become accomplished educational professionals who can analyse existing theories and practices and create new and relevant knowledge through research.

Synthesize and evaluate professional knowledge and practice and apply such knowledge to solve problems.

Initiate and innovate independent projects and research activities for the purpose of building and applying knowledge for the benefit of the local community, national society, and the global community.

Participate in scholarly discourses and disseminate knowledge through publications and journals and other means of knowledge dissemination in the academic and non-academic world; and

Demonstrate leadership qualities through communicating and working effectively with peers and stakeholders

Develop expertise in teaching, coaching, and mentoring and build credibility to become role models in appropriate educational contexts.

Program Modules

- Research Process and Academic Writing
- Research Design and Methodology
- Thesis (Part 1 - Proposal)
- Thesis (Part 2 – Final Thesis)
